RE: Naval Weapons Industrial Research Plant (NWIRP)
Site-Bethpage Site No. 130003B-OU1.

Dear Ms. Fly:

The Department of the Navy (Navy) has submitted the letter report entitled "Interim Data Summary Report and SAP Addendum, PCB Investigation At Site 1-Former Drum Marshalling Area, Naval Weapons Industrial Reserve Plant (NWIRP) Bethpage, July 2011." This report was reviewed by the New York State Department of Environmental Conservation (NYSDEC) and the New York State Department of Health (NYSDOH) and, by means of this letter and previous e-mail, approves this report and the scope of the field work contained therein.

The Interim Data Summary Report and SAP Addendum is part of the ongoing NWIRP Bethpage Site 1 work, one outcome of which will be used to evaluate the need for an OU1 Record of Decision (ROD) amendment. Therefore, NAVFAC-Midlant needs to submit a schedule of all the site 1 activities with periodic updates. NAVFAC should also begin submitting a brief, combined monthly progress report on these site 1 activities.

If you have any questions, please contact me at (518) 402-9620.

Sincerely,

Steven M. Scharf, P.E.
Project Engineer
Division of Environmental Remediation
